SKATEBOARDS

IN-HOUSE DESIGNED SKATEBOARD COLLECTION

SANCHESKI SKATEBOARDS

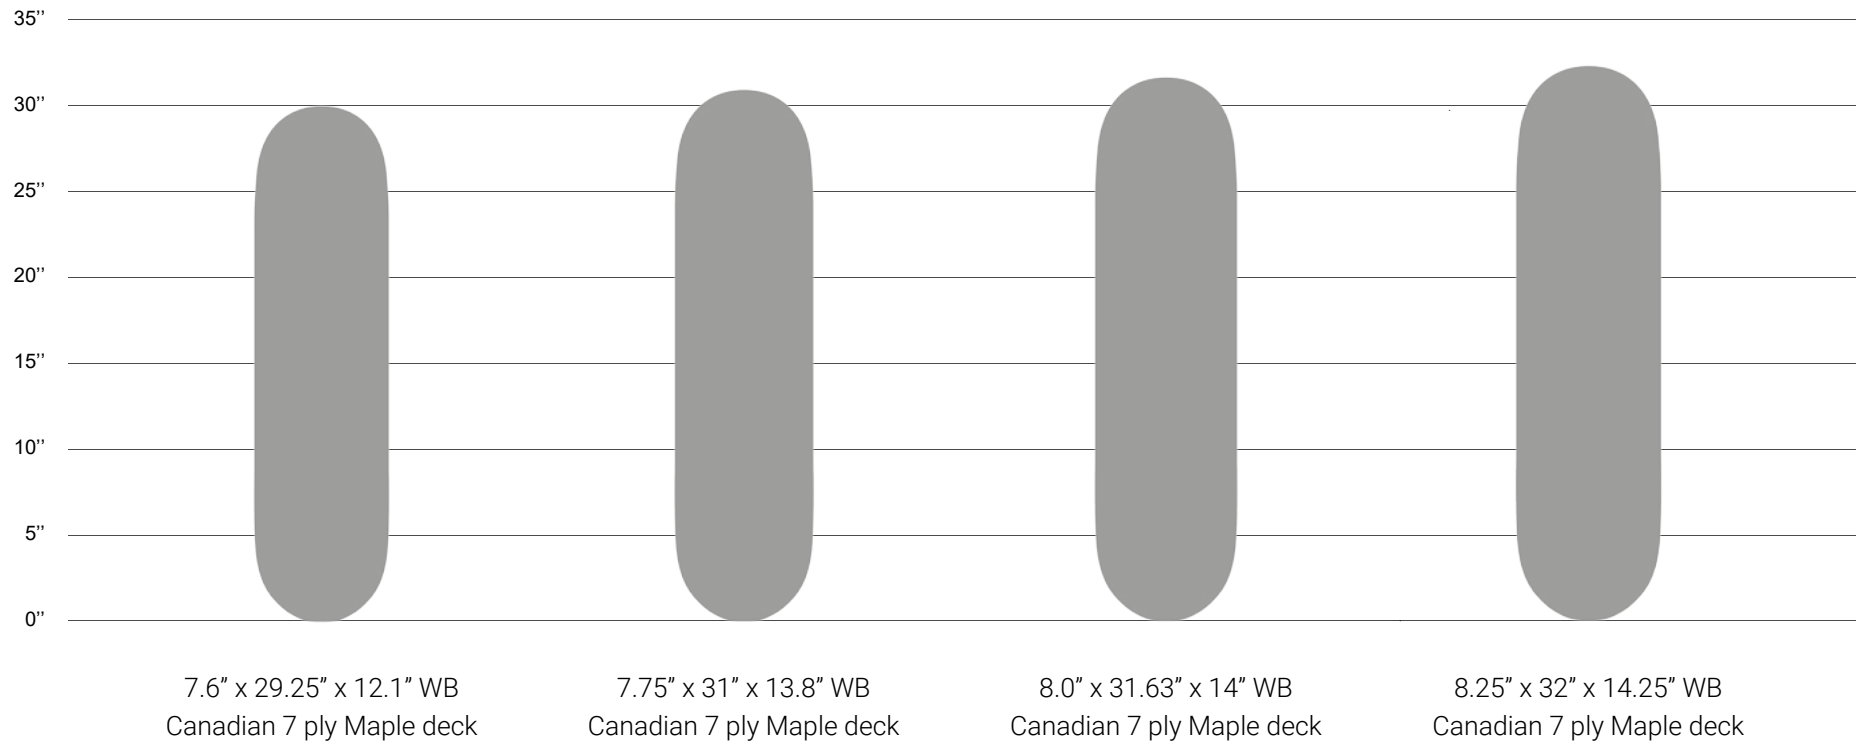

OUR STORY

Back in 1934, Francisco Sánchez created his own sports company, focused on the manufacturing and distribution of sports goods.

In 1966, he created his first skateboard, becoming a pioneer in the industry. In the 90's, Sancheski produced its last collection of skateboards, which included pro models and collaborations with local and international artists.

In 2024 the company turned 90 years old, is there a better way to celebrate than to release a new collection of decks, inspired by vintage graphics and by the factory itself?
