SOFTBOARD COLLECTION

SHAPE GUIDE

The Zero Gravity decks have been developed with beginners in mind. Young kids and adults will benefit of the features of these boards: Extra wide nose for easy paddling, smooth contour to gain stability and a narrower tail that will allow them to start to practice soft turns, all of this wrapped into a shape with extra thickness to increase buoyancy, and therefore speed in smaller waves.

Our range of boards starts in 6 feet and goes up until 9 feet. We have included an extra-wide model of 8 feet to complete the range.

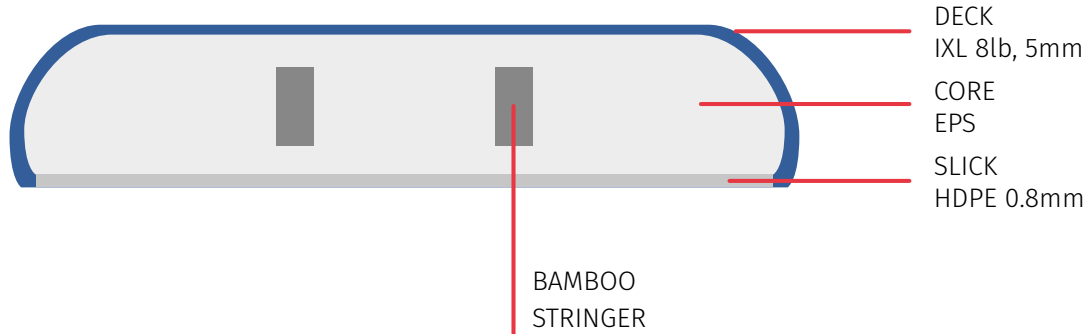

BOARD CONSTRUCTION

We use best-quality materials to build our boards, so that we can offer a the best performance and, overall, a durable product.

Our boards are built with and EPS core, x2 or x3 bamboo stringers (depending on the length of the board) and a 5mm, non-slippery soft deck to ensure beginners have a safe experience playing with the waves. The soft deck is strong enough to resist abbrasion and impacts from other softboards and soft fins.

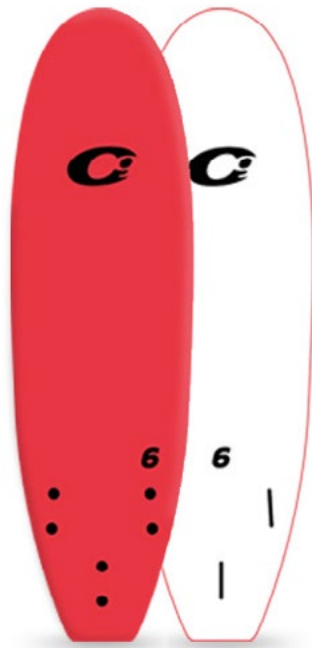

Zero Gravity softboards have been tested for several years already and we can guarantee their durability under the most demanding conditions.

SHORTBOARD- 6ft

The best option for small children: A very stable board that is lightweight outside the water and offers extra buoyancy, making it very easy for them to catch waves on their own and go back to the lineup paddling through the waves.

A combination of lightweight and soft materials to ensure a safe first-time experience for children of all ages. It is also great fun for experienced surfers that are looking for a toy to play with the waves, as it can be set up with Large fins.

6 ft

BOARD DIMENSIONS

6' x 20" (50L)

INCLUDES

x2 stringers
Soft fins (Small size)
Leash strap (Leash not included)

AVAILABLE COLORS

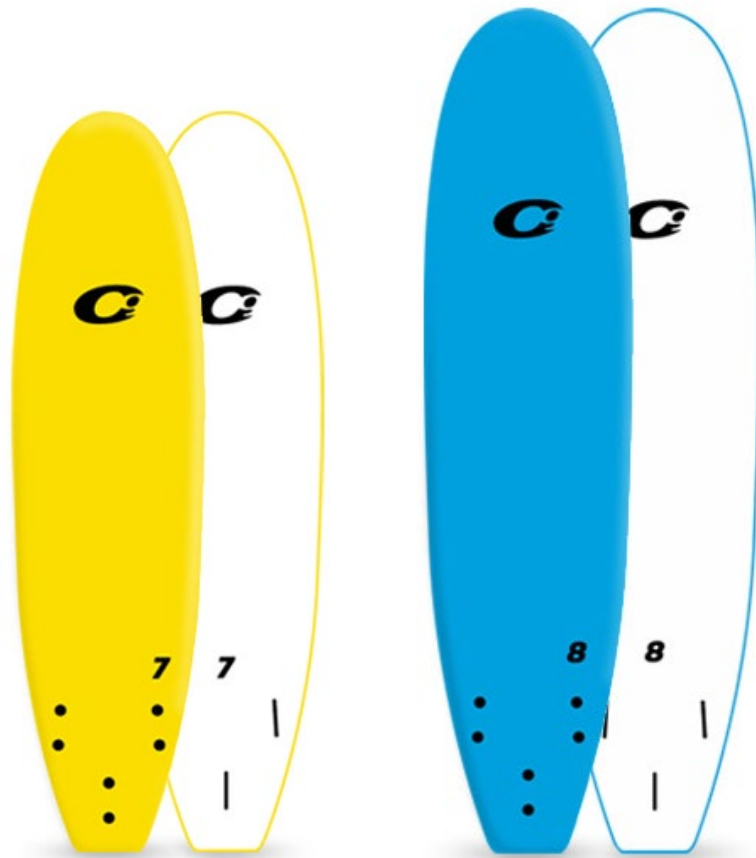

RED

MINI MALIBU- 7ft & 8ft

These shapes are the best-seller sizes for surfschools. A well-balanced board that helps junior and adult beginners stand up easily and safely, as it is a very stable shape with a thick section, great to increase speed in smaller waves.

The board's contour features a wide nose to assist paddling and therefore making it easier to catch green waves, and its rocker will avoid the nose diving inside the water when catching waves.

7 ft

8 ft

BOARD DIMENSIONS

7' x 21" (63L)
8' x 22 1/2" (73L)

INCLUDES

x2 stringers
Soft fins (Small size)
Leash strap (Leash not included)

AVAILABLE COLORS

8 ft WIDE

MINI MALIBU- 8ft WIDE

An extra-wide model with extra volume to complete ZG's softboard range. This board was conceived as a more compact alternative to our 9 foot shape, as it is easier to store and transport inside a van. Its extra volume will be highly appreciated by the clumsiest beginners, enabling them to have some fun riding waves and pushing their confidence further. It is also great for beaches with smaller waves during high season.

This board features a handle on the top of the board for easy transportation.

BOARD DIMENSIONS

8' x 26 6/8" (112L)

AVAILABLE COLORS

BLUE

INCLUDES

x2 stringers
Soft fins (Small size)
Leash strap (Leash not included)
Handle

9 ft

LONGBOARD- 9ft

ZG softboard range includes a 9 feet longboard for bigger-sized riders. Its extra rocker prevents the nose of the board from diving inside the water when catching waves, and its smooth shape will assist heavier and less experienced riders with balance.

This longboard is great for people starting their surfing adventure as adults, as its extra buoyancy will increase the speed of the board and therefore make waves easier to catch and ride. This board is built with 3 stringers for increased resistance.

BOARD DIMENSIONS

9' x 24" (96L)

INCLUDES

x3 stringers
Soft fins (Small size)
Leash strap (Leash not included)
